

**Imagine.....**

**A total global supply chain distribution system that does it all for you. Managed from your desktop computer.**

### **VendGuard™ Key Benefits**

- ☒ System does not require on-site manager to distribute supplies and maintain records
- ☒ Links all company locations to one database
- ☒ Provides immediate and accurate vending approval
- ☒ Reduces safety supply expense by encouraging use when needed and discouraging theft
- ☒ Supply machines may be filled by customer staff, supply vendor or outsourced to your local vending service operator
- ☒ Web-enabled for easy access to data by authorized employees and vendors
- ☒ Historical records for liability issues

### **VendGuard™ Key Features**

- ☒ Manages the distribution of safety equipment and supplies in an industrial plant or remote locations
- ☒ Utilizes vending machines networked in real-time with a secure Internet connection that replace manual systems of safety supply distribution and record keeping
- ☒ Provides the visibility of information necessary to make strategic and tactical decisions that:
  - Provide supplies at time and place needed
  - Offer timely and proper vending to authorized persons
  - Reduce equipment use and expense
  - Decrease safety liability exposure
  - Make the individual employee accountable
- ☒ Equipment can be reconfigured quarterly with free parts to accommodate changing usage patterns and new products.

### **VendGuard™ Order Link**

- ☒ Network data may be seamlessly interfaced into your supplier's order entry system using EDI or XML to eliminate purchase order cost for both parties. Ask your VendGuard representative for details.

## VendGuard™ Process

- ☒ Employee initiates the vending process
- ☒ Copyguard controller in machine sends information via constant telecommunications link to Transentric
- ☒ Transentric verifies the employment and budget authorization, then sends the Vend command to the machine
- ☒ Copyguard controller dispenses the item
- ☒ Transentric database updates the employee records, item history, and department budgets
- ☒ Database is immediately available for web inquiries, database updates, or batch/ user-defined reports!

☒ Call Copyguard at 1.800.755.9544 for access to the Vendguard software demonstration website

## VendGuard™ Partnership

VendGuard was developed as part of strategic alliance between Copyguard (Spokane, WA) and Transentric (St. Louis, MO)

- ☒ Copyguard is largest supplier of vending machines and card reader / modem networking for safety supplies
- ☒ Copyguard has developed advanced circuit boards to support Transentric networking
- ☒ Transentric, a division of Union Pacific Corporation, is a leading provider of supply chain technology solutions that deliver real-time visibility of inventory, equipment and information. To learn more about Transentric, visit [www.transentric.com](http://www.transentric.com)
